OUR MOTHER'S ROSE GARDEN

Located next to the parking area is
"Our Mother's Rose Garden."

This garden with its lovely water fall is designed to attract pollinators, animals and especially visitors - YOU! Throughout the year, the garden has many colorful plants, animals and accents!

So, let's explore the garden and find all the different colors!

ACTIVITY

COLOR HUNT! Read the list of colors below. Circle the color when you find it in the garden. Remember to stay on the path!

Green
Yellow
Red
Orange

Blue
Purple
Pink
Black

White
Brown
Gray
Tan

THE FARMHOUSE GARDEN

Visit the Farmhouse Garden located beside the Adam's farmhouse. This garden is home to many pollinators. Pollinators are insects such as bees, butterflies, moths and wasps and even hummingbirds! Each of these pollinators play an important role in helping plants make new seeds.

So, get ready and let's observe our pollinators in action!

ACTIVITY

Follow a pollinator! Find a pollinator (bee or butterfly) and try to follow it - remember stay on the path! See how many flowers your pollinator pal visits before it flies away. Draw lines from the butterfly or bee below to the number of flowers your pollinator pal visited!
